SANSABELT®

2 ½ “ internal waistband

In 1959 the Jaymar - Ruby company started producing the Sansabelt pant. based on the attributes of **Fit - Style - Comfort** the beltless pant became a huge success. In 2013 MPS Partners took control of the iconic Sansabelt brand.

The new Sansabelt pants offer the same fit and quality of the pants from the past. The interior 2 ½” triple stretch waistband has remained unchanged, however you will find new models and new fabrics.

All of the old classics; flat front **Top Western** model, flat front **Side Pocket** model and the **Pleated Front** model have remained in the line.. New to the line up are the **Slim Fit** and the **Golf** collections. The Slim Fit offers a very contemporary update fit with a narrow leg and shorter crotch. The Golf collection offers a unique touch of a green color on the back buttonhole.

It's all about the stretch fabric and colors. Many new brighter colors have been added and many more to come as the company continues to grow. Several fabrics have been transitioned to new high tech stretch fabrics that offer more comfort, lighter weight and breathability.

3 ½ “ internal waistband

Introducing the milbern-comfort tech* beltless pant produced by milbern clothing co inc.

Inspired by the design and comfort of the original beltless pant, the milbern-comfort tech* has been designed to offer the same **Fit - Style - Comfort** features that you are accustomed to. By designing and offering our own beltless pant we are able to better control inventory and offer a wider selection of sizes including **Long Rise** and **Short Rise**. Our new line also offers many new fabrics including denim and cottons.. Our goal is to provide you with a better beltless pant that is consistently available.

We have made a few improvement to the design of the original pant.

- 1) The interior flex band has been increased to 3 ½" depth as compared to 2 ½"
- 2) The interior waistband is now black in color as well as the internal pockets
- 3) The interior back of the waistband has been redesigned for a smoother more comfortable fit
